- Adobe After Effects
- Adobe Photoshop

## LANGUAGE

I am fluent in English and have a moderate understanding of Hindi and Tamil, and native fluency in Malayalam

## INTERESTS

- Martial Arts
- Books
- Programming
- Science & Engineering
- Cyber Security
- Volleyball

## ABOUT MYSELF

I have developed a strong foundation in creating websites, apps, and games, both 2D and 3D, using a variety of programming languages and frameworks. I am proficient in CSS, C#, Python, and HTML, and I have hands-on experience with game development using C# and Unity. I am also familiar with C++ and currently expanding my skills in Java, PHP, and JavaScript. After completing my studies in Java and PHP, I plan to learn Kotlin to further broaden my development expertise. My diverse skill set allows me to approach projects from multiple angles, and I am always eager to learn new technologies to enhance my abilities.

## PERSONAL DETAILS

Hi! My name is Nikhil Menon, I am currently a Year 12 high school student, working towards my HSC exams in 2025

The subjects I have pursued throughout my high school years that align with my future career plans include Software Engineering, App Programming, Database Design, Physics, and Engineering Studies. While Physics and Engineering may initially seem unrelated to my future career, they have provided me with a strong foundation in analytical thinking and problem-solving—skills that are crucial for a career in Cyber Security, Computer Science, and Information Technology.

My goal is to pursue and complete a Bachelor of Cyber Security, Bachelor of Computer Science, or a Bachelor of Information Technology and Engineering.

I am currently seeking work experience and job opportunities to enhance my skills, gain practical experience, and broaden my knowledge for my future aspirations.

Thank you for your consideration, and I look forward to the next steps in the application process.

Regards,  
Nikhil M.
